PREFACE

The Nevada Department of Motor Vehicles has prepared this guide to assist the industry when conducting business with the Department, specifically with the implementation of Assembly Bill 325 passed during the 2003 Legislative Session. It was created as an informational and instructional reference, and attention to the detailed information and examples will ensure proper completion of forms required to process Salvage Titles and Non-Repairable Vehicle Certificates.

SECTION I

GENERAL INFORMATION

GUIDELINES

Always type or print in black or blue ink.

Owner information must be recorded on registration and title documents exactly as it reads on the owner's driver's license.

Ensure that the vehicle identification number (VIN), year, make, odometer readings and registered owner and legal owner information are consistent on all documents.

Do not use correction fluid or correction tape.

Do not alter any information on the documents.

A release should be the same as it appears on title documents, i.e., Elizabeth should sign as Elizabeth.

All documents must be originals, unless certified to be true copies of the original documents. However, ownership certificates/titles must always be the original.

VEHICLE IDENTIFICATION NUMBER INFORMATION

Since 1954, American automobile manufacturers have used a Vehicle Identification Number (VIN) to identify and describe a vehicle.

Since 1981, all manufacturers of vehicles sold in the United States are required to use a standardized 17-digit VIN structure.

Variations exist in the location of a VIN and in the systems used for a VIN; they may vary by year of manufacture and between manufacturers.

A VIN should always be verified by a physical inspection of the vehicle.

VIN Schematic/Description

Position	Description
1-3	Manufacturer Identifier
4	Restraint System Type
5	Manufacturer Specification
6	Line, Series, Body Type
7-8	Engine Type
9	Check Digit
10	Model Year
11	Assembly Plant
12-17	Production Sequence Number

- 1st Character: Identifies the country in which the vehicle was manufactured, i.e., USA (1 or 4), Canada (2), Mexico (3), Japan (J), Korea (K), England (S), Germany (W), Italy (Z).
- 2nd Character: Identifies the manufacturer, i.e., Audi (A), BMW (B), Buick (4), Cadillac (6), Chevrolet (1), Chrysler (C), Dodge (B), Ford (F), GM Canada (7), General Motors (G), Honda (H), Jaguar (A), Lincoln (L), Mercedes Benz (D), Mercury (M), Nissan (N), Oldsmobile (3), Pontiac (2 or 5), Plymouth (P), Saturn (8), Toyota (T), VW (V), Volvo (V).
- 3rd Character: Identifies the vehicle type or manufacturing division.
- 4th to 8th Characters: Identifies vehicle features such as body style, engine type, model, series, etc.
- 9th Character: Identifies the VIN accuracy as a check digit.
- 10th Character: Identifies the model year, i.e., 1988 (J), 1989 (K), 1990 (L), 1991 (M), 1992 (N), 1993 (P), 1994 (R), 1995 (S), 1996 (T), 1997 (V), 1998 (W), 1999 (X), 2000 (Y), 2001 (1), 2002 (2), 2003 (3).
- 11th Character: Identifies the assembly plant for the vehicle.
- 12th to 17th Characters: Identifies the sequence of the vehicle for production as it rolled off of the manufacturer's assembly line.

IMPORTANCE OF ACCURACY

The Department of Motor Vehicles uses the VIN as the primary identifier for entry and retrieval of records. It is therefore critical that all documents are completed using the correct VIN.

TO AVOID ERRORS:

Ensure the entire VIN is used at all times.

Ensure the VIN is entered or recorded accurately. It is best to use block letters.

If the VIN is handwritten, try to avoid the following most common errors:

<u>LETTER</u>	<u>MAY BE MISTAKEN FOR</u>
B	13 or 8
D	0
G	6 or C
J	T or I or 5
R	K
S	5
Y	4 or H
Z	2 or a 7 on a line

“l” and “1” are often confused. The letter “l” is rarely used in a VIN.

The letter “O” is never used in a VIN, with the exception of VINs that are assigned by the States of Colorado (i.e., COLO123456) or Missouri (DR000000MO or DRMVB0000000000MO).

NOTARIES PUBLIC

If a document must be notarized, the provisions of Nevada Revised Statutes (NRS) 240.010 through 240.150 must be followed.

A notary public may not perform any act authorized by NRS 240.065 if he or she:

1. Executed or is named in the instrument acknowledged or sworn to;
2. Will receive directly from a transaction relating to the instrument any commission, fee, advantage, right, title or interest, property or other consideration in excess of the authorized fees; or
3. Is related to the person whose signature is to be acknowledged or sworn to as a spouse, sibling, or lineal ancestor or descendant.

ATTEMPT TO CONTACT

If the Department of Motor Vehicles requires evidence of an “Attempt to Contact” an owner or lienholder of a vehicle, you must do the following:

Write to the owner of record asking them to sign the enclosed documents (Bill of Sale, Application for Duplicate Title, etc., depending on the requirements) in front of a Notary or to contact you. **Caution:** Do not mail original documents that are in your possession; mail only photocopies of any documents.

If you need a signature on an original document, and it is a secure document (i.e. Secure Power of Attorney, Title) a photocopy is not acceptable.

Send the letter by “Certified Mail – Return Receipt Requested.” Keep the payment receipt, issued to you by the Post Office, with your records. Retain copies of everything you mail.

If the letter is returned with a forwarding address filed with the U.S. Postal Service, resend the letter to the forwarding address by “Certified Mail – Return Receipt Requested.”

If the letter is returned to you as “Undeliverable,” do not open it.

If you receive a signed Post Office Receipt showing the letter was received and fifteen days have passed since the date of receipt, bring all documents for the vehicle, along with the returned letter or the signed receipt, to the Department of Motor Vehicles. At that time, the Department should be able to assist you with the registration and titling of the vehicle.

If the former owner(s) contact you and provide you with the necessary signatures, the receipt or returned letter is not needed.

Prior to registering you may need to have a VIN inspection done on the vehicle.

SECTION II

SALVAGE TITLE

**SALVAGE TITLE

The lienholder must, within 30 days of receiving the notice, forward the title and the *Application for Salvage Title or Non-Repairable Vehicle Certificate* (Form RD213) to the Department.

An *Application for Salvage Title or Non-Repairable Vehicle Certificate* and all accompanying documents will be returned to the applicant if they are not completed in full.

1. Has value only as a source of parts or scrap metal;
2. Has been designated by its owner for dismantling as a source of parts or scrap metal;
3. Has been stripped of all body panels, doors, hatches, substantially all interior components and substantially all grill and light assemblies; or
4. Has been burned, destroyed or otherwise damaged to such an extent that it cannot be returned to a condition which is legal for operation on the highways of this state.

A *Non-Repairable Vehicle Certificate* will be issued, upon application, for a vehicle as described in the definition (follow directions for *Application for Salvage Title or Non-Repairable Vehicle Certificate*, page II-3). A *Non-Repairable Vehicle Certificate* must be issued before the ownership interest in a non-repairable vehicle may be transferred.

Once a vehicle has been issued a *Non-Repairable Vehicle Certificate*, the vehicle may not be registered or issued a *Certificate of Title*, or be restored for use on Nevada highways.

A vehicle for which a *Non-Repairable Vehicle Certificate* has been issued may not apply for or be issued a *Salvage Title*.

Transfer of ownership for a Non-Repairable Vehicle may only occur between a licensed automobile wrecker, dismantler or recycler. A licensed automobile wrecker, dismantler or recycler may only process a Non-Repairable Vehicle as parts or scrap metal.

A Duplicate *Non-Repairable Vehicle Certificate* may be issued by completing an *Application for Salvage Title or Non-Repairable Vehicle Certificate*, checking the transaction type box, indicating "Duplicate."
